## OBJECTIVE

Seeking a full-time position as a Front-End Web Developer.

## EDUCATION

### ROCHESTER INSTITUTE OF TECHNOLOGY

*August 2016 – December 2020 (Rochester, NY)*

Bachelor of Science in Game Design and Development

Minor in Entrepreneurship

GPA: 3.94, summa cum laude

## PROJECTS

### Budgeting App – Solo Developer

*January 2023 – Current*

- ▶ Mobile Budgeting App created using React Native, Typescript, and Supabase.
- ▶ The app is used to quickly log transactions, categorize them, and display visual and graphical breakdowns along with trends.
- ▶ Developed to simplify the expense tracking process previously used in a spreadsheet while providing fewer restraints compared to the existing apps available on app stores while maintaining general guidelines compared to the spreadsheet, along with easy navigation to see points of significance in data.

### Snoverload

*March 2019 – February 2020*

- ▶ Hyper-casual infinite runner built for Android and iOS.
- ▶ The game was developed over the span of a few months and is the first published game under Ardin Interactive.
- ▶ Learned how to work with the restraints of mobile development and understanding mechanics that make games entertaining while maintaining a sense of freshness each playthrough.

## EXPERIENCE

### Avanade – CRM Solution Developer

*April 2021 – Current (Rochester, NY / Remote)*

- ▶ Full-time Microsoft Power Platform and D365 Developer working on a variety of projects ranging from D365 Field Service integrations, custom web applications for product rentals, SAP CPQ configurable product creation, and Custom Visuals for PowerBI.
- ▶ Job created and developed skills in the Microsoft Power Platform and CRM system, along with enhancing my skills in front-end and back-end development and broadened and deepened my understanding of .Net development and Python scripting.

### Retail Business Services – Front-End Web Developer (Co-op)

*June 2019 – December 2019 (Quincy, MA), January 2021 – April 2021 (Mooresville, NC / Remote)*

- ▶ Full-time employee at Retail Business Services working on various projects to be utilized for internal and external purposes using a range of various front-end web technologies.
- ▶ Job helped produce not only a better understanding of various front-end applications and tools, but also improved communication and planning between co-workers and superiors, teaching the importance of meetings and the Agile process.
